Democratic Meetings. There will be a meeting of the cande lates of the Democratic party at Col. Holt's office, on Tuesday evening, at 71/4 o'clock. Every candidate for the city at large and for each ward is expected to be present, as business of importance will be

brought before them. There will he a meeting of the Democracy at Jno. Bell's, on the Point, between Preston and Jackson, on Wednesday evening, at 71/2 o'clock. A general attendance is expected. There will be speakers present to address the meeting,

The Democratic Association of the First and Second Wards will meet at Smith's tavern, on the l'oint, on Tuesday evening, March 15th, at 71/3 clock. Judge Joyes and other Democratic can didates will be present.

W. I. Culver's lecture ou Finances last ight was not overwhelmingly satisfactory to all his hearers. He said he owed about \$230,000 and, that he had assets to the amount of some four hundred and odd thousand dollars, about \$280,000 of which were good. He did not, however, inform his hearers what those good assets were, and, as this was the most important information he could have imparted, it is a pitty that he skipped that point. We hope he will deliver another lecture soon, and dwell more at length upon his assets. It may be difficult for him to how how a private banker, owing \$220,000 in hard cash, is perfectly safe when he has only \$280,000 of assets that he himself calls good, when these assets too are not cash, but principal ly stocks, lands, and other property. He had better explain his assets, and let his quarrels with individual creditors or debtors alone the next time be delivers a public lecture. His creditors want to know what he has to pay with, and

that is all they want to know. THEARER .-- Mr. Barry Sullivan made his first appearance before a Louisville andience last night, in "Richelieu." He played to a full house, and called forth repeated rounds of applanse in is life-like representation of the mighty Cardi nal. He is certainly an actor of more than ordinary ability, and we predict that his brief engagement in this city will be a decided success. For the most part he was well supported, Miss De Conrcy sustaining the part of Julia De Mortimer with correctness. Mr. Swit's De Baradas was a little too spasmodic to be dramatic. His legs seem to be eternally trying to get from under him. The dancing and afterpiece were first rate. To-night we have "The Gamester," dancing by Mr. Gilbert and Pilly Meeters, to end with "Mr.

and Mrs. Pringle"-a great bill. Go early and THE WEATHER .- We had a variety of this staple resterday-rain, sunshine and wind. In fact wind seemed to be the feature of the day. Old blowreas was on a high frolic. He knocked off hats and exposed bald heads; he raised dry goods and exposed pretty ankles, etc.; he filled the even of this wide-awake community with dust; he whistled through shutters and around corners with a perfect looseness. We noticed numerous bare headed mortals in pursuit of hats, which were gaily trundling in the gutters, depositing stray papers as they went. It is a vocation pecu liarly calculated to try one's philosophy and legs. The man who can chase his hat a whole square, amid the jeers and gibes of street loafers, and no swear, would make a good post master, or an

editor, who could keep his temper while morning callers were looking over his exchanges. It affords us pleasure to call attention to the advertisement, in our paper this morning, of Messrs. Guthrie & Brothers. They are receiving and opening a full and complete stock of dry goods. Their location (east side of Fourth street between Market and Jefferson), is one of the very best in the city. We commend the young gentlemen comprising this new firm to our friends, in both the city and country, as in every way deserving their confidence and patronage. They are polite, accommodating, prompt, energetic aud

DESPERATE FIGHT WITH RUNAWAY NEGROES .-I'wo fugitive slaves were captured ln Indiana, some fifty miles from this city, last week, and brought to the jail of this city. They escaped from a South Carolina planter some months since. They made a desperate resitance before they were secured, shooting one of the pursuers, and wounding him so badly he will hardly re cover. One of the negroes was shot in the shoulder, and otherwise injured by blows. He is under medical treatment in the city jail.

DIRT WANTED-STEET CLEANERS.-The officials engaged in the praiseworthy work of filling up the creek below Third street were not doing much yesterday, complaining slightly of a want of material. If they would stir np the Street Inspector, of the upper District, he could point out several localities where the dirt, ashes, and rubbish has been accumulating all winter. Invite them to the alley between Green and Walnut, and Second and Third, to begin with. We are requested to call attention of city

and country buyers to the first large spring credit sale of S. G. Henry & Co., commencing this morning, Tuesday, at 10 o'clock, at anction-rooms The assortment is a very large and general one, and comprises a number of leading staple domes tio goods but seldom sold at auction. A large line of linen goods and cotton hosiery will be included in the sale. Clothing merchants will also find a large stock in their line. The sale will be thorised to announce Col. J. W. didate for the Legislature in Oldham county .-Col. C. is an old, stanneh, and true Democrat, and

derstand that the Sons of Malta propose to have a grand bull and banquet in a short time. The roceeds will hy used to do good unto others. In nnection with this, we are requested to say that all of the members of Valetta Lodge No. 1 are requested to be present at the regular meeting tonight. A full attendance is indispensable.

THE LEBANON DEMOCRAT. - The first number of this new candidate for public favor is before us. It Is handsomely printed, and is edited with much tact and spirit by N. B. Carter. The first regular Cabinet meeting since the accession of Holt, was held to-day. Most of the consultation was engrossed upon the condition of the Post Office Department and its finances, which even yet are imperfectly underatood.

The President still inclines to the idea of reducing transportation generally, applying the principle also to the communication between the great cities. This, however, is not decided, and cannot he until the service is thoroughly overhanled, for nobody seems to know the exact condition of the body seems to know the exact condition of the department.
Since the late Mr. Brown's appointment as Postmaster-General, the expenditures have in-creased from eleven millions to twenty, and that without any corresponding advantages to the

country.

Between two and three millions were applied for overland routes to the Pacific and the interior, which, except for communication with the troops, have been of no value whatever.

GRAND BALL OF THE SONS OF MALTA. - We un. The Nicaragua and Costa Rica War in New York, The Nicaragua and Costa Rica War in New York, Yesterday afternoon, between one and two o'clock, there was quite an interesting time between General Robert Wheat, of Nicaragua netoriety, and Col. George F. Canty, of the Costa Rica service. It appears that the General, for nearly two years past, has entertained anything but the most agreeable and kindly intentions towards the Colonel, arising from circumstances growing out of the Lockridge expedition in 1957.

The following is

COL. CAUTY'S STATEMENT I went to Delmonico's with W. B. C. Webster, Esq., and Capt. Spencer, about one o'clock. On leaving the hotel and gaining the sidewalk on Beaver street, I was accosted by General Wheat, who, without any introduction, asked me if I was Colonel Cauty. I replied in the affirmative, on which he said that he had sent me a challenge at Greytown, which I had thrown to the ground. These were his words. He immediately spat in my face and struck me with his right hand above the left eye, both of which acts I at once returned

asked him for his card, telling him not to make a blackguard of himself.

While he was handing me the card with his left hand, with his right he produced a knobbed stick and struck me twice on the head above the left temple, which second blow felled me to the ground, and which caused the blood to flow co-piously, and while there he kicked me in the body. The bystanders and my friends interfered; where on I was enabled to arise. I was perfectly un-armed and surprised, as I had met him frequent-ly before, both in Greytown and in this city, with-ont recognition. I have never given any privata or personal grounds for quarref with him or any of the fillibuster prisoners of war; on the conground, and which caused the blood to flow co

or personal grounds for quarref with him or any of the fillibuster prisoners of war; on the contrary, I have always treated them with courtesy and kindness when in my power.

When first I met the General in Greytown, after their defeat at Castillo Viego, he sent me a private challenge, which I disregarded, by the advice of Commodore Erskine and Captains Osborne and Duniop, of the British fleet, on the grounds that as he was virtually a prisoner of war, in the habit of insulting and challenging everybody, (which they had personally experienced), and had no grounds for private quarrel or wrongs to redress I should be insane to take any more notice of him than they had done. I have not had other rela him than they had done. I have not had other rela tionship with him, and have never reflected on his private character, and would now consider myself

wanting in self-respect to take further notice of an act of rowdyism.

The affair above detailed by the Colonel was but the work of a few moments, at the termination of which the crowd dispersed. The General left with his friends, and the Colonel to get his wounds dressed, possibly to meet another day and finish their difficulties. The Colone! Sriends were very indignant over the affair, and say all manner of hard things about the General. — N. Y.

The Opposition Platform-No. IV. The fourth plank in the platform of the so-called Opposition is as follows. 4. It is a Party with no common Policy or fixed Principles.

Its members agree with each other as little in regard to fundamental principles of governmental they do in regard to measures of national

policy.
Old fashioned Federalists, with President Buchanan and Chief Justice Taney at their head, combine with Locofoco Democrats.
Nullifiers and strict constitution Stale rights men unite with anti nullifiers and the loosest

tudinarians
Distributionists of the proceeds of the public lands mingle with opponents of that measure, and both unite in squandering the public domain for the benefit of unnaturalized foreigners and pet

Red Republicans, Socialists, and Agrarians, scatternize with Southern nabobs, who advocate property qualification for voters, (and a slavebolding qualification for representatives,) and who proclaim in the Senate the doctrine that who proclaim in the Senate the doctrine that taboring men are everywhere the mud sills of society," and that "every man is a slave who de-cends upon the wages of his labor for a support." Such are the discordant materials of the party that the President, with proper regard to sec-tions, cannot even organize a Cabinet that har-monizes either with him or each other on the most important subjects. We find him com-pelled to the lumiliating toleration of a Secreta-ry of the Treasury who denounces and exerts his official influence to thwart a favorite and nis official influence to thwart a favorite and most important measure which the President recommends to Congress. Others of his Cabinet are epipose him upon other measures. One of the chief organs of the party makes bitter complaint that it has broken into fragments, and that even those fragments are subdivided into cliques by different aspirants to the Presidency. dency.
What Mr. Cathoun said of the party before it

came and r his guidance, its whole career proves to be trac -"It has no cohesive principle but the power of public pluader." It is not our purpose to enter into a defensive

argument in behalf of the common policy or fixed principles of the Democratic party. To do such a bing would please the Opposition too well .-That is the game ther are aiming to play-to course, in playing such a game they care not for the character of their charges, since the false would effect their purpose as well as the true. In comparison with the policy of the Opposit

tion, it may be true enough that the Democracy America as she must be in the future. Is suited our Re.

Or the Oswego Guard, was taken out dead; als Mrs. Mary Carlin and Mrs. Bridget Langdon, who were conveyed to the house of R. H. Martin, Esq opposite, where both soon expired. Another wo have no common policy. They have, however, an or and as she must be in the future. It suited our Republic when Jefferson took " suited our Rewith its sixteen Stales and five millions of freemen. It suits the same Union now that the Democracy have coubled the number of States, and added to be confederacy a public domain west of the dississippi river and extending to the Pacinc ocean twice as great in extent as was the landed inheritance bequeathed to us by the fathers of the revolution. It is a policy which suits the thirty millions of freemen now popula-

ting this vast domain, and that will suit the hunfright or injurient and la mentations were to be heard
dred millions that will inhabit it at the close of on every hand in the vicinity. the present century. Indeed, it is not a common but is an uncommon policy. And the same might be said in general terms Democratic party, in one sense, have no fixed

muscles and sinews of the young giant that presides over the proud destiny of America. They have added sixteen new States and balf a dozen vast Territories to the original domain of the Union, and their gloriously expansive principles still embrace the whole, and leave an open space large enough for Cuba and such parts of Mexico, Central America, etc., as the exigencies of the inscritable future may force upon us. In this sense the principles of the Democracy are not fixed nor fettered by the oaths and ritual of a narrow-minded faction, whose apostles killed themselves as Kuow Nothings, baried themselves as Americans, and are now vainly trying to resurrect as Oppositionists. It is perfectly natural, however, for the self-

styled Opposition to cry out that Democrats don't agree among themselves as to fundamental principles of government, or measures of national policy; that old fashioned Federalists combine with ocofoco Democrats; that nullifiers and Staterights strict constructionists unite with antipullifiers and loose lutitudinarians; that distributionists of the proceeds of the public lands amalgamate with anti-distributionists; that Red Republicans, Socialists, and Agrarians fraternize with Southern nabobs who oppose their creed; and that the elements of the Democracy are so discordant that they war with one another from the Cabinet down to party organs of both the press and stump. It is natural, we say, that the Opposition should speak thus of the Democracy. They are but exposing their own troubles, and proclaiming to the world their own domestic misfortunes.

Who ever heard or read of such an amalgamation

of warring political elements as constitute the socalled Opposition? Their organization began a few years ago, with antagonistic elements enough to have made a chaos. So soon as its banner was hung out, with Know Nothing written upon it, sore-headed Democrats and unappreciated Whigs. came together in the same lodge with Abolitionists and Black Republicans. There was a general meeting and shaking of hands by the most terrible elements of political war and carnage. And at this moment the Opposition consists of all the warring political elements of the age-brokendown political backs from the old Whig and Democratic ranks, Emancipationists in the South, and Abolitionists at the North-and indeed every man, woman, child, and nigger, thet was not appreciated by any of the former parties, has gone into the meshes of the new organization to give his luck a new turn. Such a combination must see discord in everything around, just as a blind man sees darkness, or a fighting army contemplates battle. It is not possible for them to see things otherwise than as they charge them upon the De-

Only see what these Oppositionists have done in our sight! They have made the Hon. Joshna F. Bell their standard bearer in chief, while the echoes of his denunciations of their most cherished tenets still ring in the land. Bell absolutely builtied the convention held here on the 22d of last month into the adoption of a platform that stultified he makers, and when he accepted the nomination tendered him, he told them that he had opposed them, and that be had not changed one of his political notions. And, worce than this, the Opposition had to submit to a platform drafted by the Hon. S. S. Nicholas, who had SINGER'S SEWING MACHINES, been growling at them ever since they came into existence, because, we suppose, they were into existence, because, we suppose, they were the streets and the public prime Plantation Molasses; and the public generally the suppose of the prime Plantation Molasses; and the public generally th

astonish themselves and the world. They quit abusing the Pope, and gave the foreigner a respite, and did many other things to please Bell and to conciliate Nicholas, and to bring such of the elite of Kentncky as Bullock, Harlan, Robertson, Davis, Letcher, etc., etc., into the field of active operations, with some hope of success, so for which they were dying. We are anxious to see the final result of all this, and shall not object to hearing the house-divided-against-itself talk of discord elsewhere, while the people are pulling down the rotten concern.

The Democracy of Virginia are supporting a man for Governor who in 1948 was as openly in favor of Abolition in Virginia as the Louisville Courier was at the same time in Kentucky.

The Know Nothings of Kentucky are supporting an editor who was as openly in favor of Free-Niggerism in his native Connecticut as his Louisville Journal is now secretly in favor of it in his slavery, and spoke of that addition to the Union as | Fulton and Floyd streets. follows-"Every man who does not wish to see the powers of the Northern and Western States depart forever, every man who does not wish to see a dozen new slave States added to the Union, and to hear the cries of additional millions of wretched ne groes going up to meet the Lord in the air, and imprecate vengeance upon our land, will oppose the purchase of Texas with a deep and irresistible determination"-and who, in the opinion of many, entertains the same sentiments now that he did then on this Free-Nigger question.

The most awful calamity occurred last evening about fificen minutes after seven o'clock, at St.

A LITTLE CHILD LOST IN THE MOUNTAIN .- Th Gettisburg (Pa) Compiler gives an account of the loss of a little boy four years of age, a son of Mrs. Ovler, of Cumberland county. He strayed from home, and the whole neighborhood started out on the search, scouring the surrounding monntain through the day, and displaying lighted torches after night After two days and nights, the dead body of the little fellow was discovered nearly nine miles from his home. The Compiler

then adds:
The little dog, which had been the child's playmate, and which had accompanied him in his long and fatal journey, was found neatled in the child's bosom, with his head reclining on his cold and lifeless form. The faithful dog had tramped quite a path around the lifeless body of the sleeping inno consent the heartwise the advice the sleeping innocent, thus betraying the affection that it had for the youth, and its fond caresses had licked back the hair npon 'the child's forehead. The corpse was conveyed home to its weeping mot er, who, under the peculiarly afflicting circumsta ces, was almost frantle with grief.

ETILWELL II. WEKEFIELD.

Louisvile, March 11, 1859. Artificial Light in the World.

[IN 18] Vesper Gas Light has won for itself a reputation tor ciegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixtures is so simple that it is not flatle to get out of order, and a calld can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other tartign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oll is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, the rebeing of unsteadiness in the flume. The Vesper Gas light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single light burner to the most coatty characterist. Artificial Light in the World. LADIES' KIB SLIPPERS AND own and black Gaiters, with and are adapted in styles to suit all tastes, from the plain inside light burner to the most coetly chandelier. Each chandelier is perfect in itself; there is no ontiny to be made for service pipes. The gas is generated in the ourner, and suil fixtures, from the cheap single light ourner to the expensive chandelier, are miniature gas orks in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of similar wisles and ournamentation. A price list will be sent to

any address on application MERCHANTS risiting Louisville should not fail to procure the Vespe Gas fixtures for their stores. Gas distures for their stores.

CHURCHES, HOTELS, PUBLIC HALLS AND PRIVATE RESIDENCES

throughout the State can now be fitted up with those eigenut and convenient chandellers, and other beautiful gas fixtures, which add so much to the appearance of such places, and to the comfort of the home circle, and which, heretofore, could be used only in those favored districts embraced within the coal gas limits of large cities.

The limited space of an advertisement precludes th Insertion here of the numerous testimonials of approva we have received from all quarters. Suffice it to say scientific men and others who have examined and thor onghly tested the merits of the Vesper Gas light, pro-nounce It the best and cheapest artificial light no: nown.

BY TELEGRAPH. FURTHER BY THE STAR OF THE WEST

NEW YORK, March 14 .- By the steamer Sta West we have dates from Valparaiso Jan. 31.

The revolutionary movement is still progress ing. Tusca, in the south, and Husseo and Copi-apo, in the north, are in arms against the Govern-ment. Troops have been sent against the insur-

gents. An attempt at revolt had been made in the provinces of Nuble and Actenagna, but it was trustrated by the seizure of several of the agitaors.
The Commercial, formerly favorable to the Gov

ernment, speaks of the revolutionary movement with contempt, and says that the speedy restoraion of tranquility is certain. Other authorities say that the revolution daily gains ground, and trouble was expected at Val-paraiso, where great fears were entertained of excesses being committed by the mob.

The dates from Lima were to February 11th.—
Business was completely paralyzed. No news of

nterest.
The United States sloop-of-war Cyane was at Callao, to leave shortly for Panama.

From Washington. Washington, March 14.—The report of the board of army officers, appointed by the Secretary of War to look into the army expenditures and other matters, with a view to retrenchment, recom-mends the abandonment of most of the interior osts beyond the western line of settlements. They are maintained at great expense and suffer-ing to no purpose. Shortly after these posts are built they are generally abandoned and the cost s thrown away. Last year five of these posts were abandoned and within ten years fifty. The board recommends the advance of the corps of the army from the Western frontier in the spring to the interior or across the continent, and to return to the settlements in winter. The New York Times' correspondent says the news from Mexico alarms the Tehuantepee gen-lemen. It is reported that Slidell and Benjamin prevented the recognition of Senor Mata. The

brevented the recognition of Senor Mata. The Liberal Government opposes the monopoly of the Isthmus, and will annul the present arrrangement. It is also said here this evening that the Tehuantepec interest secured Mr. McLane's appointment, and that he will recognize Miramon, if the slightest opportunity ofters itself, unless the Liberals yield the monopoly of the transit to the present contractors.

the present contractors.

The disclosures made by Com. Charles Stewart, respecting the Cuban policy of Mr. Jefferson's administration, was drawn out in reply to a communication from Com. Kearney, and were not addressed to Mr. Buchanan, but only submitted for his consideration. Mr. Buchanan declared to for his consideration. Mr. Buchanan declared to Southern Senator, last evening, that he had de termined to call an extra session of Congress and would issue his proclamation within ten days. The time will be determined on Tuesday, in Cabinet, but it will not be earlier than the first of August. The majority of the Cabinet are opown appropriations.

From New York.

New York, March 14.—The Tehnantepec steam-ship Coatzacoalcos, which was advertized to leave this port for Havana, and New Orleans on the 10th inst., has had the time of sailing post-poned to Wednesday, 23d inst., when she will posttively depart. The change in the day of sailing was necessary to complete arrangements; she was necessary to complete arrangements; she takes no passengers for California, but only to liavana and New Orleans. She takes freight to New Orleans, a considerable portion of which has already been received. To Havana she caries no freight except in specie.

The remains of Governor Brown were met at he Nashville and Chattanooga depot by a large concourse of citizens, military, masonic, and other orders. At nine o'clock this morning the

procession proceeded to the State Capitol, where he funeral service was conducted by Rev. Dr. auintard, of the Episcopal Church, and Rev. Dr. Summers, of the Methodist Church; thence to the Mount Olivet Cemetery, where the ceremonies were concluded by the Masonic order. The busi-ness houses were closed, and the deepest feeling pervaded the community.
